MoU with EUMETNET

E. Brockmann

Status (1)

- MoU signed in London (“Most sexiest moment” for Joao)
- 2 EUMETNET Meetings in the time between
 - 1 organization was not willing to contribute
 - Data bases of Met community are not organized in a way to exclude contributions of single met offices
- 1 GPS expert meeting E-GVAP (Sept. 2007)
- Situation:
 - Person / institute can get access to data (and beforehand must sign to not use the data commercially)
 - Data format discussion: No standard exchange format existing.

Status (2)

- Simple hourly format with “MO region, WMO site No, lat, long, height, yr, mon, day, hr, min, temp,dew, pt, temp, pressure“
- Format will be generated by UK MetO
- Theoretically available as a christmas gift – a little more format discussion beforehand might be appropriate
