Problem of Deliverables

- Deliverables 2009-:

- Report Italy, UK/EIR, Greece, Czech Republic

- SINEX Italy, Greece, Czech Republic (UK postponed)

- Log sheets None, partially created from reports

- Coordinates and other meta-data retrieved from reports

- 1989-2009 No campaign information yet!!!

- Presentations at Symposia are not sufficient normally (missing coordinates,site names)

  Discussion: Do we need numerical and administrative info Or: simply nice pictures (Map of EUREF sites)?
