EUREF-TWG Project: Monitoring of official national ETRF coordinates on EPN web

E. Brockmann

Resolution 3 (Firenze, 2009)

- The IAG Reference Frame Sub-commission for Europe (EUREF)
- *Considering*
 - the importance of ETRS89 and its future maintenance and the importance of the national realisations of ETRS89 in use today
- *invites* the member countries of EUREF to submit coordinates of EPN stations in their national realisation of ETRS89 to the TWG before **September 15, 2009**.

14 countries already contributed to a pilot project

Status

- Autumn, 2009: **18** countries contributed
- Reminder H. Hornik February, 13 to answer resolutions
- Reminder E. Brockmann April, 20 to answer resolutions
- **22** countries contributed
- All counties agreed to publish their coordinates on the EPN web page

Number of EPN sites with official national ETRF coordinates

Not yet asked (EPN sites)

Ok: (xx CRD delivered / EPN sites)

No EPN sites used: (xx CRD delivered / EPN sites)

Greenland:4
Israel: 2
Jordan: 1
Morocco: 2
Armenia: 1

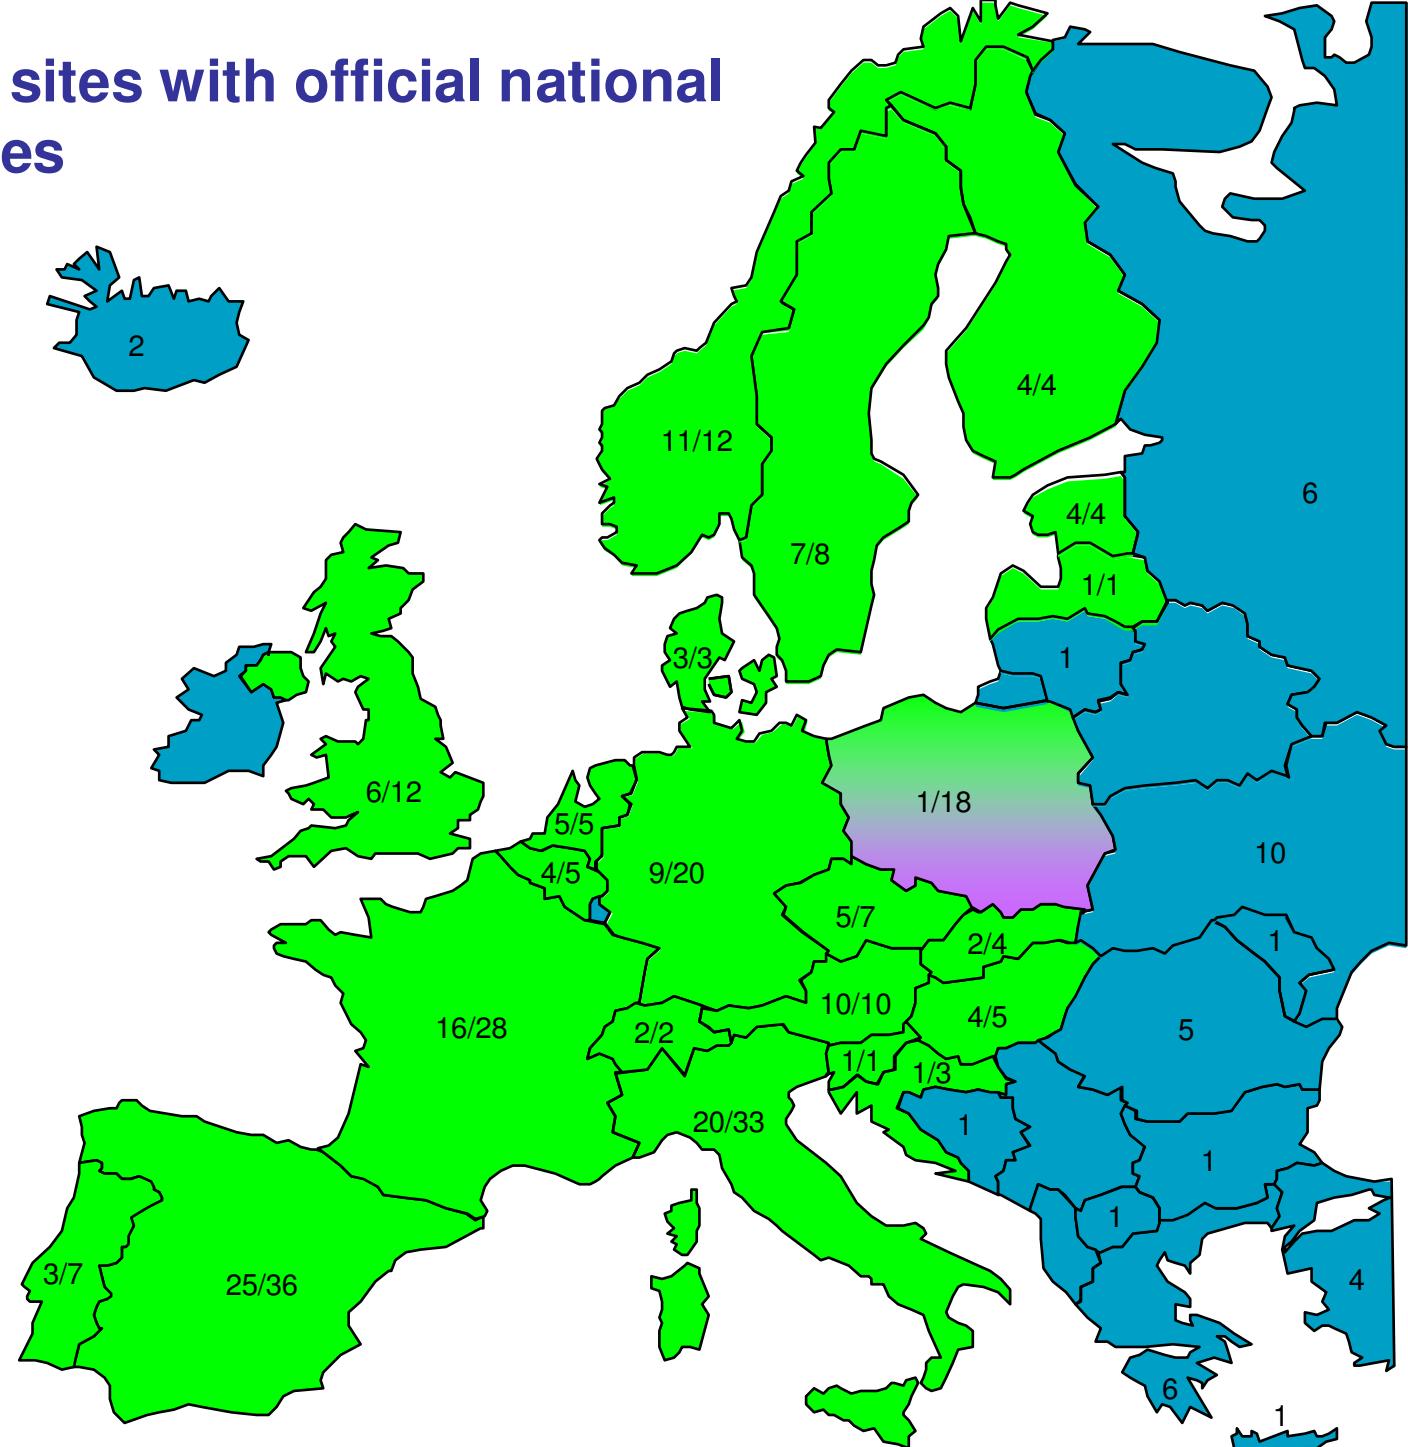

Official ETRF coordinates:
22 countries
149 sites

plus more site coordinates
(additional national +
outside of the country)

EPN: **40 countries**
243 active sites

Status National: 10.5.2010

EPN: 10.5.2010

Missing countries

Country	(#ETRF / #EPN)
UKRAINE	(0 / 10)
RUSSIAN FEDERATION	(0 / 6)
GREECE	(0 / 6)
ROMANIA	(0 / 5)
TURKEY	(0 / 4)

EPN densif. →
solution

1. POSITIONS/VELOCITIES PUBLISHED BY EUREF

EUREF has classified MAR6 (Maartsbo, Sweden) as a **class A station** which means that it can be used as fiducial station for EUREF densifications.

Latest release

EPN_A_ETRF2000_C1570.SSC - EPN_A_ITRF2005_C1570.SSC (March 23, 2010)

ETRF2000	epoch t ₀	Position (m)			Velocity (m/y)		
		X	Y	Z	V _x	V _y	V _z
308/1996 - 044/2010	001/2005	2998189.743 ± 0.000	931451.611 ± 0.000	5533398.522 ± 0.000	0.0044 ± 0.0000	0.0007 ± 0.0000	0.0066 ± 0.0001

2. POSITIONS/VELOCITIES PUBLISHED BY THE IERS

3. POSITION PUBLISHED WEEKLY IN THE EPN COMBINED SOLUTION

new →

4. POSITIONS PUBLISHED BY THE COUNTRY

The official ETRS89 coordinates used in Sweden are maintained by **LM**. This agency is fully responsible for the information (frame name and coordinates) kindly provided to the EPN:

Frame	Valid (from - to)	epoch t ₀	Position (m)			Velocity (m/y)		
			X	Y	Z	V _x	V _y	V _z
ETRF97	213/1993 - now	182/1999	2998189.713	931451.589	5533398.474	NA	NA	NA

Following a recent initiative of the EUREF Technical Working Group ([Monitoring of official national ETRF coordinates on EPN web](#)), the differences between the national coordinates and the latest cumulative EPN solutions (section 1) are regularly monitored. They are given in two maps: [[horizontal differences](#)] and [[vertical differences](#)].

Reference solution

1. POSITIONS/VELOCITIES PUBLISHED BY EUREF

EPN reference solutions with frequent updates are provided (Kenyeres, 2009):

- every 15 weeks
- [relative before week 1400] + absolute PCVs
- actually combination is week 1570 (March 23, 2010);
EPN_A_ITRF_C1570.SNX (latest release)

Remarks:

- ITRF2005 -> ETRF2000 using ETRF2000(R05) transformation parameters
- only class-A stations are compared; only most recent station setup is compared; comparison at reference epoch specified by the country

Comparison with EPN reference solution

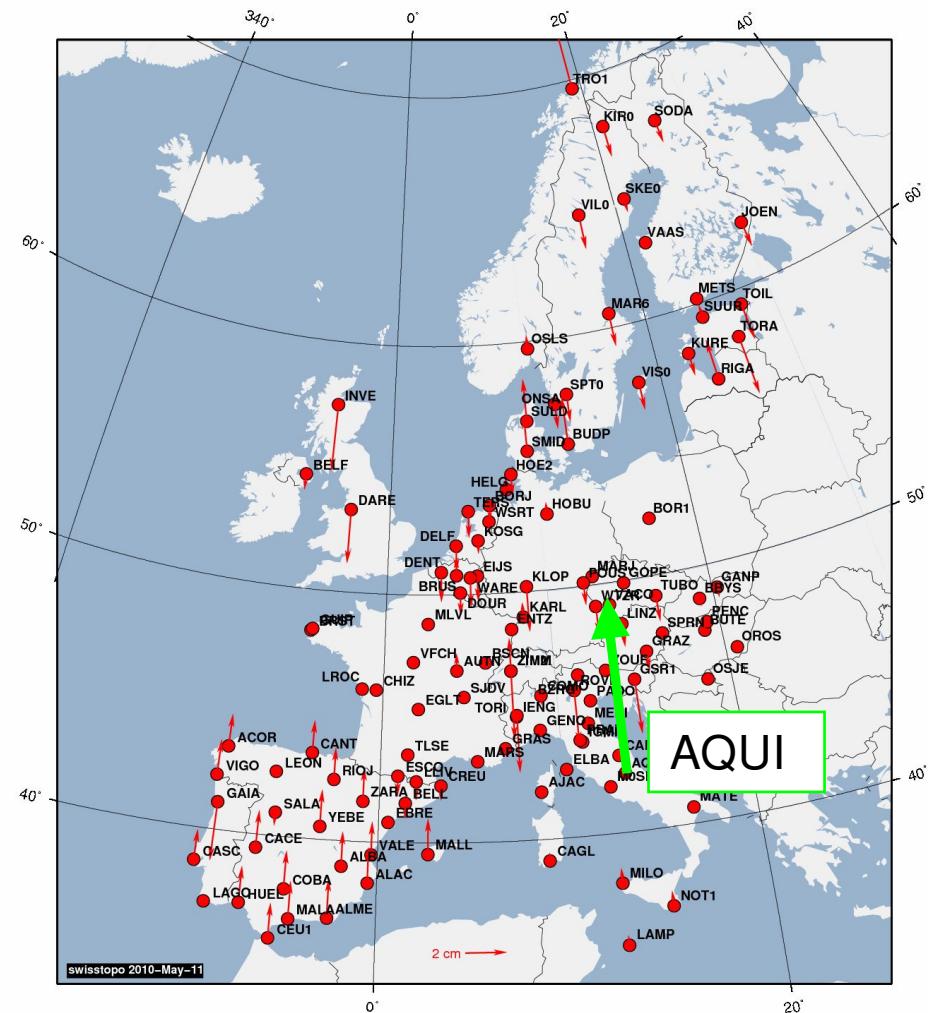

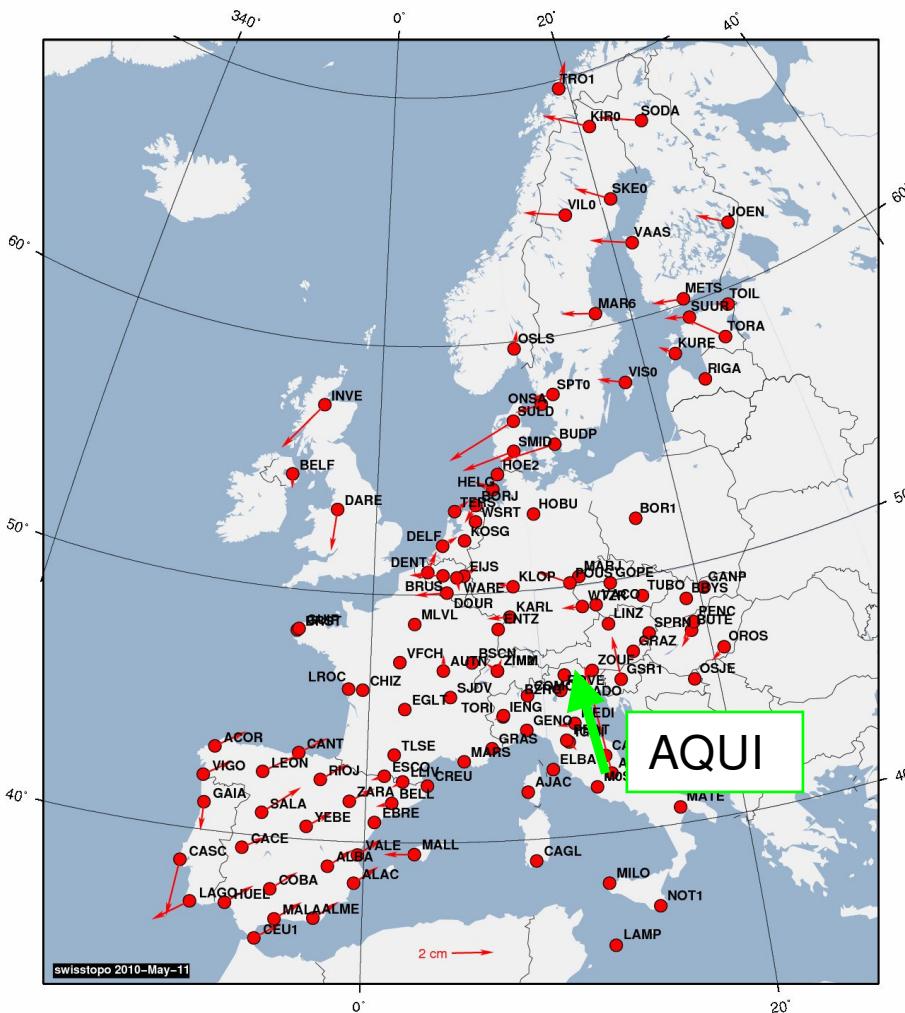

121 stations

22 countries

horizontally

vertically

at country
specified epoch

Results

- Different ETRF realizations very homogeneous realized (1-2 cm horizontally, 1-4 cm vertically)
- AQUI (Aquilla): Abruzzo Earthquake April 2009:
~6 cm horizontally; ~8 cm vertically
 - nice example that EUREF/EPN gives feedback to the countries!
 - official national ETRF coordinates updated May, 21
- Countries with movements w.r.t stable part of Europe:
reference epoch is important (e.g. Scandinavian postglacial rebound; Italy; Greece; ...)

Realized activities

- Resolution 3 regarded as completed (Europe almost covered; bigger part of East Europe missing)
 - Countries not yet submitted: please contact us and send information
- Beta coordinate web pages are available on the EPN
- All countries got a feedback and request to check carefully the information in section 4 (responsible institution, station names, coordinates, reference frame name, epoch).

Countries are responsible for information in section 4

Planned activities

- Activation of the beta web page on the EPN web
- Development of an update mechanism of coordinate changes (e.g. as established with station log). Update feedback at the moment manually.
- Coordinate Monitoring: At present automated check of the coordinates every 15 weeks. In future possibly automated e-mailing in case of bigger differences.

Thanks for your attention

- Acknowledgment
 - 22 contributing countries and national agencies
 - EPN web team for the support

4. POSITIONS PUBLISHED BY THE COUNTRY

The official ETRS89 coordinates used in Sweden are maintained by **LM**. This agency is fully responsible for the information (frame name and coordinates) kindly provided to the EPN:

Frame	Valid (from - to)	epoch t ₀	Position (m)			Velocity (m/y)		
			X	Y	Z	V _x	V _y	V _z
ETRF97	213/1993 - now	182/1999	2998189.713	931451.589	5533398.474	NA	NA	NA

Following a recent initiative of the EUREF Technical Working Group ([Monitoring of official national ETRF coordinates on EPN web](#)), the differences between the national coordinates and the latest cumulative EPN solutions (section 1) are regularly monitored. They are given in two maps: [[horizontal differences](#)] and [[vertical differences](#)].
