Presentation to EUREF 2010, June 2010

National Report of Great Britain

Ordnance Survey activity

- OS Net™ 110 stations – covers GB, just 2 stations to connect
- Zero order sub network (GeoNet) complete
- New ETRS89 realisation (EUREF IE/UK 2009)
- New geoid model will follow – will allow Channel Tunnel link to be completed

In the report:

- NERC BIGF British Isles GPS archive Facility
- Herstmonceux Space Geodesy Facility
- Research at Newcastle University and University of Nottingham
