

MAA-AMET

Invitation to EUREF2019 Symposia

ESTONIA

- Area: 45 339 km²
- Population: 1.316 million
- Forests cover ca 55%
 - Highest point: 318 m
 - 1521 islands
 - Thousands of lakes
- e-Estonia = advanced digital society
- Yet, one of the last Baltic sea countries adopting NAP (hence, no “step” any longer for incoming ferries in the sea)

Estonian Land Board

- Governmental agency responsible for the national geodetic infrastructure
- National centre of competency in land related issues
- Largest producer, manager and distributor of spatial data
- Biggest provider of spatial data services
- Cadastral registrar

MAA-AMET
