

# National Report of Great Britain

M. Greaves, P. Cruddace, R. Bingley & D. Baker and G. Appleby

Presentation to EUREF 2006, June 2006

# National Report of Great Britain (1)

## National GPS network and RTK network developments

- OS Net<sup>®</sup> now 91 stations – most of GB covered
- Full nationwide coverage planned for end 2006
- Public RTK services provided by 2 commercial partners
- 55 stations submit RINEX to www

## EUREF related activities

- 7 GB stations in EPN – 3 hourly submission
- DARE and INVE now contribute raw data to EUREF-IP
- EUVN\_DA, action A, submission – data on 170 sites
- ECGN meta data submitted for NEWL and HERS

# National Report of Great Britain (2)

## BIGF British Isles GPS archive Facility

- Hosted by IESSG at the University of Nottingham
- Long term national archive, currently 123 stations
- 3 IGS & 7 EPN
- Submissions to ESEAS, COST 716 and TOUGH

## Gravity observations

- FG5 gravimeter installed at Herstmonceux – now being commissioned
- Joint programme with Proudman Oceanographic Lab
- Gravity measurements compliment existing GNSS and SLR already on site
